

Victorian Antique Onyx and Cameo Flip Ring, RG-3362

Delicate filigree work adds interest to this Victorian antique onyx and cameo flip ring's dramatic backslash. The highlight of this antique flip ring is the interchangeable bezel. The black onyx side is centerpieced with a rhomboid-set round single cut diamond that weighs 0.01 carats. The opposing side showcases a peachy shell cameo that features a milky female right profile. A 14k white gold band lends metallic shimmer to both options. Circa 1900.

Options	None
Item #	rg3362
Metal	14k white gold
Circa	1900
Weight in grams	3.15
Special characteristics	This late Victorian ring features a 14k white gold classic filigree mounting. The bezel flips to show either a cameo or onyx! One single cut diamond is set in a 3.2mm square silver plate which is mounted on the black onyx.

Width of shank at shoulders	1.95 mm [0.08 in]
Width of shank at base	0.98 mm [0.04 in]
Ring height above finger	7.22 mm [0.28 in]
Ring Size	7.0

Important Jewelry Information

Each antique and vintage jewelry piece is sent off site to be evaluated by an appraiser who is not a Topazery employee and who has earned the GIA Graduate Gemologist diploma as well as the title of AGS Certified Gemologist Appraiser. The gemologist/appraiser's report is included on the Detail Page for each jewelry piece.

An appraisal is not included with your purchase but we are pleased to provide one upon request at the time of purchase and for an additional fee. The appraiser bases the value for the jewelry on the range of prices prevailing in the most common and appropriate retail markets on the date the appraisal is completed.

Diamonds, pearls and colored gemstones are graded by the grading standards as taught by the Gemological Institute of America (GIA). All measurements and carat weights are approximate, unless otherwise noted, and are determined without removing the stones from the mounting.

The process of determining when a jewelry piece is made and the period it belongs to is not an exact science. The determination is based on design, materials, hallmarks, signatures, and the manufacturing method. Circa dates and period assignments are made to the best of our abilities.

All pearls are cultured unless noted as natural. All gemstones have been treated by accepted industry standards unless noted otherwise.

Platinum refers to all metals in the platinum family and the alloys which are mixed with it -- palladium, platinum/iridium, and platinum/ruthenium and platinum/cobalt. A non-destructive acid scratch test is used to verify the metal in each jewelry piece. A refractometer is used to test gemstones.

Computer monitors show colors differently; please keep in mind that the actual colors in a jewelry piece may be different from the colors displayed in the website photos.

Jewelry photographs are enlarged to show details. To help you determine if a jewelry piece is appropriate in terms of actual proportions that suit your style as well as the statement you want to make, we provide detailed measurements of the piece.

Rings are photographed on a mannequin's hand in a glove size 6. Rings in sizes from 5.0 or smaller are photographed on a mannequin's hand in a glove size of 5.0.

Each antique and vintage jewelry piece has been pre-owned and expertly restored unless otherwise noted under "Condition".

For special ring orders as well as antique style and vintage inspired rings which are new, the diamond and gemstone carat weight, color, clarity, gram weight, as well as other jewelry details may vary from the website specifications.
